

REMARKS

Applicants are hereby amending claims 24 and 87 to correct a clerical error made to those claims in the amendment dated August 26, 2008. Specifically, the claims should correctly describe the withdrawal member has been positioned at a lower level "than" the discharge system rather than a lower level "of" the discharge system. The original claim is not supported by the specification, but the claim, as amended herein, is supported by the specification. Specifically, the withdrawal member 101 is clearly shown in Figure 1 as being positioned below the discharge system 70.

In a telephone interview on December 8, 2008, this amendment and the reasons for it were explained to Examiner Prince, and the Examiner agreed that this amendment would be entered. Applicants are grateful to the Examiner for his willingness to consider and agree to the amendment in the telephone interview.

Respectfully submitted,

DORSEY & WHITNEY LLP
